

# ***Career Pathways***

***2023 - 2024***

*Summer Internship Reflections*

**25 STUDENT PARTICIPANTS REPRESENTING  
11 DIFFERENT METRO DENVER HIGH SCHOOLS**

Valeria Villareal  
***McKinstry  
Engineering***

Interned at McKinstry, a design/build engineering firm specializing in sustainability. She focused on creating a user guide for the Reveal™ data analytics software, simplifying it for facility managers to monitor equipment performance. Through this project, they gained entry-level knowledge of HVAC systems, improved their ability to interpret data trends, and honed problem-solving, organizational, and computer skills. Additionally, they wrote reports for clients, emphasizing the importance of technical writing in STEM. Their experience also included attending lectures on McKinstry's offerings and a Solar PV array tour at the Colorado School of Mines.

Leo Agoi  
***Deeply Rooted  
Music School***

Worked with elementary and middle school students during music summer camp, learned music production tools and software to record original tracks and songs

Margarita Tikhanova  
***McKinstry  
Engineering***

Noah Paul  
***Deeply Rooted  
Music School***

Learned video editing software and created content for social media broadcasting to promote the summer camp music enrichment season

Silas Gomez  
***History Colorado***  
Explored graphic design, digital illustration, and created visual storyboards showcasing the work and operations of employees at History Colorado Center.

Jackie Kibozi  
***Apex Systems***  
Jackie's internship with Apex Systems, a leading global technology services firm, provided the opportunity to sit in on a variety of client meetings. She also got to design and create marketing materials for their upcoming golf tournament fundraiser. She was able to secure several sponsorship and donation commitments. She used her marketing skills to create materials used for internal and external communications. Jackie was able to apply her newly learned recruiting skills to source candidates for the technical recruiting team.  
Besides hosting an intern, Apex volunteers work with our teens throughout the year on sharpening their resume writing and interview skills.

Becky Milanda  
***UC Health***  
Her internship included rotations at the school of Pharmacy, the Pathology Lab and working in Central Supply where she learned to stock isolation carts and deliver items to different units in the hospital. Becky also attended several "Lunch and Learns", hosted by renowned speakers from various fields of medicine. **Becky is attending Red Rocks Community College.**

Nathan Perez  
***Colorado Eye Consultants***  
Communicated with patients while taking them back to clinic in a timely manner. He adapted well to a busy office. First shadowed other technicians, then performed vision fields, diagnostic tests on his own.  
**Nathaniel received a scholarship to CO School of Mines where he will study mechanical engineering.**

## Julieth Hernandez *Belmar Attorney's Office*

offered in-depth look at local government and the process of laws and how they relate to the public as well as differences between Municipal Prosecution Office and the DA's Office (city/county).

The girls had exposure to learning the court process including DV's, Traffic, Adult Penal cases, Identity theft, and homeless cases. Spent time understanding state cases with the police Legal Advisor. Spent time doing legal research both online and with books from the library to understand how case law affects cases going before today's courts.

## Malia Yazzie *Belmar Attorney's Office*

offered in-depth look at local government and the process of laws and how they relate to the public as well as differences between Municipal Prosecution Office and the DA's Office (city/county).

The girls had exposure to learning the court process including DV's, Traffic, Adult Penal cases, Identity theft, and homeless cases. Spent time understanding state cases with the police Legal Advisor. Spent time doing legal research both online and with books from the library to understand how case law affects cases going before today's courts.

## Katie Chiunti *Children's Museum*

Katie was the assistant in the gift shop. She helped with Stocking, merchandising, pricing organizing and cleaning. Great interactions with gift shop and front desk staff including positive interactions and teamwork. **Katie earned a partial scholarship and will be attending CU Boulder.**

## Silvia Navarette *Mortenson Architecture*

Through shadowing, Silvia had the opportunity to be exposed to many facets of the constructions business . She worked in areas including virtual design and pre-construction estimating. Her favorite part was being out in the field on active job sites. **Silvia will be studying mechanical engineering at Denver University where she earned a full scholarship.**

Tobias Centeno  
***Andrade Fashion***

Aided in the creation of patterns to be used on clothing for a large company, designed flyers for entertainment events in Los Angeles, and researched various elements of brand building in the fashion industry.

Gray Ohleyer  
***All Its Own***

Worked in a hybrid art/plant shop, managing inventory and dealing directly with customers in a retail small business environment, where over 30 local Denver artists are represented.

Eli Meisner  
***Elite Entertainment***

Assisted the warehouse manager of a high end DJ business, primarily prepping equipment and gear for weekend events and countless Colorado weddings.

Brianna Tadlock  
***Mint & Serif***

Served and worked directly with customers at this unique Denver coffee shop. Also helped to manage inventory, prep and setup for special events, and work through daily coffee cafe tasks.

Asher Bruns  
***Gold Crown  
Foundation***

Asher had the opportunity to engage with key leaders including the Executive Director, Finance Director, Facilities Director, Sports Director, Athletic Director, and the Partnership and Development Manager. Additionally, he served as a student assistant in the weeklong robotics summer camp, further broadening his experience. Asher will soon present his findings and recommendations to the Foundation's directors. His contribution has sparked the possibility of annually hosting an internship position with GCF and Pathways, potentially paving the way for future interns.

Eleisha Bogyah  
***CL&A Associates***

Unique experience which afforded a great deal of autonomy having earned trust early on to use good judgment and represent the firm. Eleisha worked on several campaigns including Tobacco Free Kids, and attended several City Council meetings. She assisted four staff members with research on land use, transportation, and various topics. **Eleisha will be attending CSU in the fall.**

Tshebia Hall  
***Rising Sun  
Senior Home***

Achieved a variety of new goals, earning certifications in administering vitals and nutrition. Additionally, she prepared breakfast for 11 residents each day, fostering strong, individualized relationships, which significantly improved her bedside manner and medical expertise. Tshebia demonstrated exceptional dedication and growth and is now a student at Metropolitan State University to further explore her interest in a medical career.

Savannah Waller  
***Best Buy***

Savannah officially earned her Best Buy "blue shirt" after passing her PC certification. She is a sales associate rotating to various departments and completing sales and returns as a cashier. She has been asked to stay on past her internship as part-time through the holidays. Savannah is a senior at Lakewood High School.

Gabby Galeano

## ***Next Level Sports Rehab***

Was able to shadow physical therapy sessions, as well as sports training with athletes. Assisted in getting areas and supplies prepared for incoming clients and also helped keep up with lots of laundry!

Sheila Arias

## ***40 West Arts at Creature Arcade Tattoo***

Sheila assisted teaching a two-week summer camp for preschool children. Besides the usual fun arts and crafts, she assisted in walking field trips to Blaze Pottery, Rocky Mountain School of Art and Design and the iconic Casa Bonita! The last part of her internship is working with Val Galado, a tattoo artist and Clubhouse alum. With hopes to become a tattoo artist, Sheila is shadowing Val and gaining instruction as she refines her fine art skills and builds her portfolio.

Kalel Goodwin

## ***Footer's Catering***

Kalel attended the culinary program at Warren Tech last year which prepared him for the fast-paced work in Footers' kitchen. From his very first day he was in the kitchen preparing large batch recipes, chopping, rolling and prepared a lunch salad for the staff! He continued with kitchen prep work and worked a few special events where he first helped load carts with needed supplies. He has been asked to work weekends while continuing his senior year at Lakewood High School.
